"Catherine and John were both fantastic to deal with amidst an ever changing mortgage and housing market . We had returned from the UK to purchase our first home in Ireland and they secured us a loan offer within a very fast time frame . We had many delays waiting for our new build home to be completed and although this was a very anxious time , John in particular was very reassuring and a calming influence .

Both John and Catherine's knowledge and expertise meant we got the best deal available on the market when we drew down on our mortgage . Their rapport and business relationship with the lender also meant this was a very straightforward and timely process .

We would strongly recommended them ."
